Students tend to misunderstand the term business casual and business professional, believing that business casual is more casual clothing than business clothing. This is incorrect, when you think business casual you should like more business than you do casual. Below we will explore the difference between business casual and business professional and discuss several different situations in which you might need to dress in the correct one.

A Few General Tips

- Be clean and use unscented deodorant liberally.
- Arrive early. In a restroom, check your clothes, hair, hands and nails, and face: corners of eyes, nose, and teeth. Carry and use a travel mouthwash.
- Keep jewelry conservative.
  - For men, a good quality watch with a metal or leather strap and one ring on your ring finger is acceptable.
  - For women, a good quality watch with a metal or leather strap, one pair of small earrings, preferably studs, and a matching necklace is acceptable. One ring per hand is permissible, preferably on your ring fingers.
  - Any evidence of body piercing should be removed, with the exception of a single earring in each ear for women.
- Hair should be neat and recently cut. Facial hair should be cleanly shaved.
- Nails should be neatly manicured. Women should avoid overly long nails and should keep nail polish colors simple, preferably clear and un-chipped.
- DO NOT wear scents: wear unscented deodorant and do not wear cologne, aftershave, scented hairspray, or perfume.
- Women’s make-up should be light and simple, and appear as natural as possible.
- Carry breath mints with you, but don’t use them during the interview. DO NOT chew gum.
- Glasses should not be tinted. It is important for an interviewer to make eye contact with you.
