

WHAT TO DO WITH A DEGREE IN...

CONSTRUCTION ENGINEERING TECHNOLOGY

The Bachelor of Science degree in Construction Engineering Technology is designed to provide highly specialized education that prepares students for successful careers in management of the construction process. To execute the increasingly complex designs of the architect and engineer, professional constructors work with the design professionals but pursue an educational program focused on the construction industry. The work environment varies, including outdoor work, an office setting, or a combination of both.

CAREER PATHS IN CONSTRUCTION ENGINEERING TECHNOLOGY

- Project Manager
- Field Engineer
- Estimator
- Superintendent
- Scheduler
- Foreman
- Officer Engineer
- Pre-Construction Services
- Project Engineer
- Safety Engineer

WHO HIRES CONSTRUCTION ENGINEERING TECHNOLOGY MAJORS

- Allen Contracting
- Andres Construction
- Austin Commercial
- CMS Willowbrook
- Crossland Cons.
- Exxon Mobil
- Flintco, LLC
- GE Johnson Cons.
- Hensel Phelps Cons.
- Lambert Cons. Co.
- Lithko Contracting
- Manhattan Cons.
- Manhattan Road & Bridge
- Ross Group Cons.
- Sherwood Cons.

CONST. ENGINEERING TECH.

Utilize techniques that are appropriate to administer and evaluate construction contracts, documents, and codes. Utilize measuring methods, hardware, and software that are appropriate for field, laboratory, and office processes related to construction.

TIPS FOR SUCCESS IN CONSTRUCTION ENGINEERING TECHNOLOGY

- Use your resources. Consult your professors on issues that you may be struggling with and ask questions about your field. All of them have held professional careers in the industry.
- Become involved with other students in CET. Both the Construction Engineering Society and the Construction Leadership Council are great opportunities to network with upperclassmen and professionals.
- Talk to the department for CET majors and get alerts about events, scholarships, and available jobs. Always read your emails.
